## Buying frenzy Led by high demand and low mortgage rates

Despite the ongoing pandemic, COVID-19 restrictions and economic uncertainty, home buyers flocked to the GTA area for yet another banner month in housing activity. Sales jumped by 64.5 per cent, and the average price rose by 11.2 per cent to \$932,222, in comparison to December 2019.

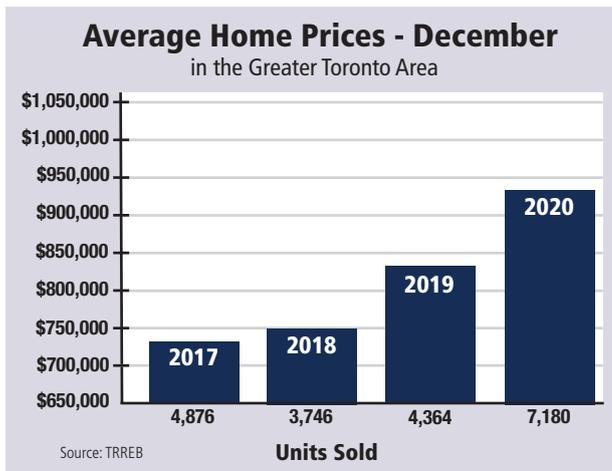

The competition for ground-level properties with green space boosted demand for single-family homes. Record-low mortgage rates and the work-from-home regimen had buyers looking for bigger properties, driving demand toward houses and away from downtown condos. Economists say a shortage of houses for sale has contributed to the jump in prices and with the popular

five-year fixed mortgage below 2 per cent helps home buyers to take on bigger mortgages.

On a year-over-year basis, sales of detached, semi-detached, townhomes and condo apartments in the GTA surged by 54.6 per cent, 56.8 per cent, 76.8 per cent and 75.4 per cent respectively.

The average price for detached homes, semi-detached homes and townhomes in the GTA was up 17.7 per cent, 16.6 per cent and 14.1 per cent respectively.

While condo sales surged in both the 416 and 905 areas, average price in the City continued to soften (down 4.7 per cent) but in the suburbs was up 6.3 per cent.

## Riverside Market Watch

### Recent Sales (July 2020 – December 2020)

	# sold	avg price	highest price	days on market
<b>Detached</b>				
3 Storey	-	-	-	-
2½ Storey	3	1,499,397	1,550,000	6
2 Storey	3	1,402,333	1,597,000	7
Bungalow	1	1,185,000	1,185,000	4
<b>Semi-detached</b>				
3 Storey	5	1,518,038	2,015,000	19
2½ Storey	5	1,395,268	1,740,000	4
2 Storey	11	1,290,273	1,585,000	10
1½ Storey	1	1,051,500	1,051,500	8
<b>Townhome</b>				
3 Storey	3	1,264,333	1,368,000	9
2½ Storey	5	1,412,003	1,603,000	7
2 Storey	12	1,395,083	4,225,000	8

# Work

# School

# Gym

# Vacation

In 2020 homes went from the place people return to after work, school, hitting the gym or vacationing to the place where families do all of the above. Do you need more room in 2021? Give me a call and we can discuss it.

## Working from home?

### New tax break due to COVID-19

The Canada Revenue Agency has unveiled a new tax break specifically for those who started working from home due to the pandemic. You've likely incurred job-related expenses working from home. If your expenses were not substantial, you can claim a simple deduction of \$2 per day (up to \$400) on the new T777S form, no questions asked.

If your expenses were more substantial, in addition to the T777S form, you will also need to fill out the new T2200S form, which allows you to claim more detailed expenses. Have your employer sign this form to confirm that you had to work from home due to COVID-19. You do not submit this form with your taxes, but should have it ready in case the Canada Revenue Agency (CRA) asks for it, says Lisa Gittens, a senior tax expert at H&R Block. In either case, you must have worked at least 50 per cent of the time for a period of four consecutive weeks in order to claim COVID-19 related expenses.

What can you claim? A portion of your rent, utility bills, and home internet access fees; any supplies used to do your work - paper,

printer ink, cleaning supplies, etc.; and commissioned employees can claim property taxes, home insurance premiums and the lease costs for devices like cell phones or computers used for work.

Rent, internet and utility costs are claimed in proportion to the space used for the purposes of your job. For example, if your office space takes up 30 per cent of your home, you can claim 30 per cent of those bills. Items like a monitor, a desk or office chair can't be claimed on the forms specific to COVID-19 instead you should claim them on the usual working from home form T777, as "capital cost allowance."

These claims are deductions not credits on your 2020 tax return. These COVID-19 related deductions will lower your taxable income, which in turn may entitle you to more credits. As Gitten notes, "The net income is what Canada Revenue Agency uses to determine if you are now eligible for other types of benefits like your GST credits, like your Canada Child Benefit."

What's more, these deductions may lower your tax rate, which means you may end up paying less tax for 2020.

## Mortgage Rates

January 8, 2021

Prime	-	2.45%
